

Let's see what your Ceiling Fan Smart Switch can do:

Adjust your fan from the comfort of your bed.

Go to the **Cync App** and **turn on** the ceiling fan or **change the fan speed**.

Automate your fan to turn on when you come home.

Go to **Cync App** and schedule times to turn your fan on and off under **create a scene**.

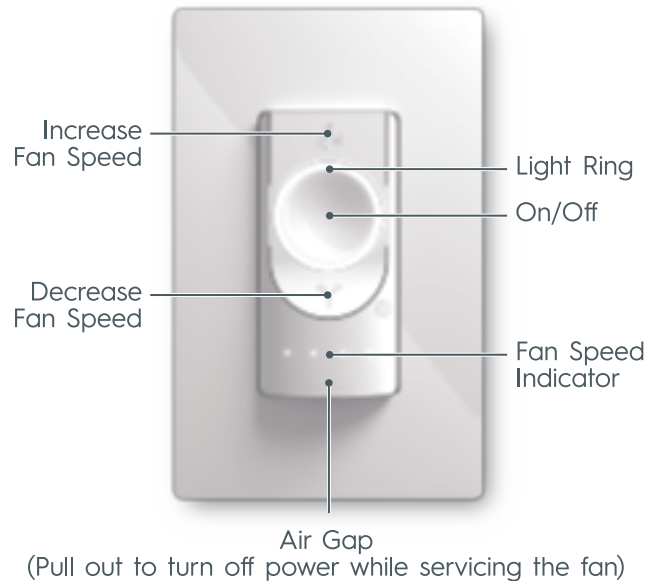

Enable whole-room comfort and control.

Assign your Ceiling Fan Smart Switch to the same Room as other Cync and C by GE devices to get whole-room control over your lights, fan and electric devices.
